Grounded in health care expertise and enabled by access to leading technologies and tools, the *Lead With* Care program is focused on providing care, confidence and comfort to all Four Seasons guests, employees and residents within the new COVID-19 environment.

The program outlines clear procedures that educate and empower Four Seasons employees to take care of guests and each other. While guests will see many of the enhanced *Lead With Care* procedures, behind-thescenes measures will also take place through employee training, additional food handling protocols, and enhancements to ventilation systems and other back-ofthe-house operations. In addition, Four Seasons continues to invest in its award-winning App and Chat that further allows guests to control how they engage with others limiting face-to-face interactions while maintaining the highest levels of personal service. Features include the ability to make and manage reservations, request luggage pickup, airport transfers, room service, restaurant and spa reservations, and much more. Wait-free check-in and check-out is also offered, while Four Seasons Chat integration offers instant translation of 100+ languages giving guests the flexibility for contactless engagement throughout their stay.
